Performance You Can Trust

2024 PRODUCT
CATALOGUE
UK EDITION

We make **better products** in a **better** way.

- We select materials and processes that are more sustainable, and manufacturing that has less impact.
- Our products are designed to be more efficient, reducing energy use and carbon impact.
- We make products that are reliable, serviceable and built to last.

“We continually review, refine and adapt our manufacturing processes to deliver even greater levels of sustainability throughout our product ranges.”

Chris Duncan
Chairman and Founder of Numatic International Ltd.

In 2024, our customers continue to grapple with a myriad of complex and pressing challenges. Elevating cleaning and hygiene standards for all, achieving heightened productivity, and making substantial strides towards the critical sustainability agenda remaining at the forefront of the cleaning industry. Addressing the needs of today and conquering the challenges of tomorrow requires professional cleaning solutions that deliver

Performance You Can Trust.

Building on Sustainability

The **NUMATIC SUSTAINABILITY FORMULA** is the foundation to all our product development and sustainable initiatives.

INTEGRATED SUSTAINABILITY

A sustainable approach is integrated throughout all of our operations, from design to manufacturing, to distribution and when in use. Our teams always strive to innovate and introduce even more sustainable manufacturing practices at our 42 acre site in Somerset, United Kingdom.

- Extensive Solar Investment
- Resource-Efficient Technologies
- Zero Waste to Landfill
- Sustainable Product Lifecycle
- LED Lighting

Net Zero by 2035

We recognise the need and demand for sustainable cleaning solutions and commit to initiatives across our business.

This includes becoming Net Zero by 2035 (for Scope 1 and 2) by setting incremental targets to keep us on track. We have also signed up to the Science Based Targets Initiative (SBTi), setting ambitious emissions reduction targets in line with the latest climate science.

While we work on reducing our emissions, we have taken additional measures to reduce our impact on the planet by carbon balancing our Scope 1 and 2 emissions through our trusted offsetting partner C Level.

2024

- 30%**
30% reduction in plastic packaging use (avg. KGs per unit) by end of 2022, and further 30% reduction by end of 2024.
- 10%**
Reduce CCA (Climate Change Agreement) Measured Electricity and Gas usage by 10%, under agreed CCA targets, by end of 2024.
- 10%**
Reduce non-recyclable waste by end of 2024.

2025

- 50%**
Increase use of recycled plastic in our 11" and 12" vacuum cleaners by 50%, by end of 2025.

We support the following **Sustainable Development Goals (SDGs)** of the United Nations:

3 GOOD HEALTH AND WELL-BEING	5 GENDER EQUALITY	6 CLEAN WATER AND SANITATION	9 INDUSTRY, INNOVATION AND INFRASTRUCTURE
10 REDUCED INEQUALITIES	11 SUSTAINABLE CITIES AND COMMUNITIES	12 RESPONSIBLE CONSUMPTION AND PRODUCTION	13 CLIMATE ACTION

PHASE 1 (2020-2023)
Collection of data surrounding our operations and carbon footprint

PHASE 2 (2023-2026)
Launch key initiatives and long-term goals for sustainability. In 2023, we committed to the Science Based Targets initiatives (SBTi)

PHASE 3 (2026-2029)
Scale up our initiatives and begin hitting some major targets

PHASE 4 (2029-2032)
Continue driving down emissions and gain a clear picture of how well we have fared globally in our endeavour to limit global warming. 42% emissions reduction across all scopes by 2030

PHASE 5 (2032-2035)
Ensure that all possible reductions have been made to secure Net Zero for Scope 1 and 2

2035
Scope 1 & 2 Net Zero
Scope 3 50% reduction

2045
Scope 3 75% reduction

2050 & Beyond
To reach **Net Zero** with 90% emissions reduction across all scopes, in line with SBTi 1.5°C emissions reduction pathway

Scope 1
Direct emissions produced by our company facilities and our company vehicles.

Scope 2
Indirect emissions from purchased electricity, steam, heating and cooling used for our own use.

Scope 3
Emissions covered by Scope 3 include our upstream and downstream operations.

Sustainability in Action

Achieving ambitious sustainability targets requires innovation, action and transparency. These initiatives move us forward in reaching our goals and leading the way in providing sustainable cleaning solutions for our customers.

Sustainability is broader than just reducing our carbon footprint. True sustainability is helping others to be sustainable in their everyday practices, ensuring the earth and its communities are cared for.

ReFlo Technology

Many of our products are engineered from our innovative, environmentally sustainable ReFlo Technology. We use the highest quality, recycled, post-industrial plastics, which are diverted from landfill.

OUR TEAMS ARE WORKING HARD TO EXPAND THE USE OF SUSTAINABLE MATERIALS ACROSS THE NUMATIC PRODUCT RANGE, WHEREVER POSSIBLE.

“Made from the highest quality, recycled plastic.”

The Bigger Picture

We've partnered with **charity: water** to provide water to communities and projects that need it the most. Through every purchase of a 244NX, we donate the equivalent of 5000L of water.

WORKING IN PARTNERSHIP WITH:

OUR INITIAL PROJECT TOOK PLACE IN MADAGASCAR, RECEIVING 100% OF THE DONATIONS.

“85 MILLION Litres of water funded since launch in 2021.”

58% of the population currently lack safe drinking water.

22.8 Million do not have a decent toilet.

8.5K of children under 5 die each year from diarrhoea.

Not Just Any Offsetting

We've been reducing our carbon footprint and offsetting global bag sales since 2020. We've partnered with a leading company in carbon offsetting innovation, C Level.

WORKING IN PARTNERSHIP WITH:

CARBON OFFSETTING GLOBAL BAG SALES SINCE 2020.

Our offsetting has drawn **11,350 tonnes** of CO2 down to Earth.

Projects we work with: CommuniTree, Trees for Global Benefit and Hadza Hunters.

“Numatic are working with us to take things even further, with more Carbon Balancing and looking at long term future goals.”

4x Longer Lasting than Lead Batteries

Runs Longer

Configurable performance that suits you, offering increased runtime of up to 44%*. Ensuring you can keep cleaning when it is most convenient for you.

More Sustainable

NX1K lasts longer than lead alternatives, significantly reducing material use and disposal, providing a much more sustainable solution.

Fast & Flexible Charging

Unlike Lead, NX1K Fast Charge Technology allows completely flexible charging, allowing you to use your machine whenever you need to, no matter how much it's charged. NX1K Fast Charge Technology drives productivity, providing you an increase in machine availability in comparison to Lead.

Extended Long Life Power

Delivering over 4000 charge cycles, NX1K will last as long as your machine. Utilising the latest Lithium Phosphate Technology, NX1K is one of the safest battery platforms on the market. A 3-year battery warranty provides complete peace of mind for you and your cleaning fleet.†

Nu-Track Insights

Built-in with our intelligent fleet management telemetry system, Nu-Track provides in-depth insights, lowering costs and increasing productivity across your fleet. ‡

*Any comparisons used are based on typical usage scenarios, results may differ. Performance comparisons use equivalent GelTec models.
